

Another IPO stock, are you ready?

It is recorded that 144 companies have been listed in Hong Kong Exchange alone in the year 2020 which makes Hong Kong the most important IPO market in the world.

eBroker offers a full suite of eIPO modules from front office to backoffice to help you capture clients to trade in IPO market.

● Easy IPO Subscription – Web/ Mobile/ App

Investors can browse on IPO stock details and apply for IPO stock via multiple channels including Windows download applications iDC3 / Mobile App iTraderMobile and Web based trading platform eLite.

● Margin Financing Multiple Loan Ratio and Interest Rates

Our eIPO module supports both cash and margin financing. Once subscribed, clients' purchasing power will be held up according. For each individual stock IPO, you can preset multiple Loan ratios and their corresponding Loan interest rates.

● Loan Limit Real-time Risk Monitoring

System will monitor the preset loan limit and alert investor to lower the loan amount applied or change to cash subscription once the preset limit is reached.

Attribute Type	Attribute ID	Value	Description
Order Server	EIPOLoanLimit	10000000	eIPO Loan Limit Per Product
Order Server	EIPOMinLoanAmt	100000	eIPO Minimum Apply Loan Amount Per Product

● Info seamless import into Backoffice system GBSX

Before the IPO subscription deadline, all subscription info can be imported into our backoffice system GBS X and corresponding info exported to HKEX CCASS. The subscription info will be displayed in client's statement automatically.

● Allotment Result

Investors can easily view the allotment result in Mobile App iTraderMobile, web trading platform eLite or Windows downloaded application iDC3.

● Grey Market Trading

We provide grey market module which interface with other brokerage's grey market exchange such as Philips Securities. Your clients can seize the pre-IPO opportunity to place orders once shares have been allotted.
