

Optimal Onboarding experience for your new clients

eBroker' s online account opening system OAO comes with a new upgrade this year which connects to ZOLOZ™ platform to help you verify your new customer' s identity instantly as part of eKYC process.

What is ZOLOZ™?

ZOLOZ™ is Ant Financial Group' s digital solution for ID processing and identity verification. It is well established and widely used in the industry. Major users including Alipay HK and Alipay China.

What can it do?

ZOLOZ™ uses its powerful AI based analysis module to verify and answer the questions below in your eKYC process.

- Is this a live selfie or just a photo?
- Is the live selfie matched to the person on the ID card?
- Is this a real ID card?
