

New Business Opportunities in Year 2023 ?

How about Fractional Shares Trading in US Market ?

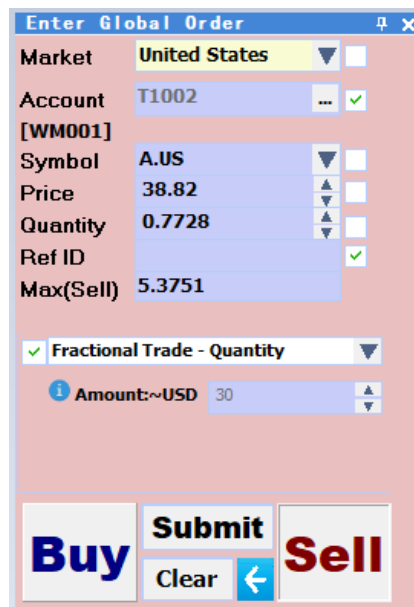

A lot of millennial investors are now going for monthly investment plan where they will set apart a portion of their income to invest in shares in different markets or even in ETFs. eBroker has collaboration with US execution brokers such as ViewTrade to offer Fractional Shares trading to brokers in Hong Kong.

● How to place US Fractional Shares Orders?

Investors can now place US fractional shares orders via iDC/ mobile app or through AEs easily.

The screenshot shows the 'Enter Global Order' form with the following fields: Market (United States), Account (T1002), [WM001] Symbol (A.US), Price (38.82), Quantity (0.7728), Ref ID, and Max(Sell) (5.3751). The 'Fractional Trade - Amount' option is selected, and the 'Amount:~USD' field is set to 30. The form includes 'Buy', 'Submit', 'Clear', and 'Sell' buttons.

The 'Fractional Trade - Quantity' option is selected, and the 'Amount:~USD' field is set to 30. The form includes 'Buy', 'Submit', 'Clear', and 'Sell' buttons.

Or enter the number of shares in decimal places (support up to 5 decimal places)

Simply enter the Amount to be invested

eBroker's US Fractional Shares trading functions provides opportunities to investors to purchase quality shares even if one cannot afford to purchase one whole share.

Main features of US Fractional shares trading function:

- Allow investors to place, modify or cancel fractional shares orders easily
- Individual broker can set their own minimum order amount according to internal policy
- Quantity precision up to 5 decimal places
- Clear portfolio display as below:

Position View - T1002
