

## New Business Offerings – Provision of HKEx Market Data

eBroker is pleased to announce that we are officially licensed as an information provider with HKEx on 1 Nov 2020, with the aim to provide more comprehensive trading solutions to clients embedded with real-time market data from HKEx.

Investors can now subscribe their own market data packages according to their own investment needs and preferences across platforms in different applications including iTrader mobile App, eLite web trading App and iDC download App.
